

Arcadia Biosciences to Present at the Fifth Annual Liolios Gateway Conference on September 8, 2016

September 1, 2016 8:00 AM ET

DAVIS, Calif.--(BUSINESS WIRE)--Sep. 1, 2016-- Arcadia Biosciences, Inc. (Nasdaq: RKDA), an agricultural technology company that creates value for farmers while benefitting the environment and enhancing human health, has been invited to present at the [2016 Gateway Conference](#) being held on September 7-8, 2016 at the Four Seasons Hotel in San Francisco.

Raj Ketkar, Arcadia's president and CEO, is scheduled to present at 8:30 a.m. PDT on Thursday September 8, 2016. Mr. Ketkar and Roger Salameh, Arcadia's chief operating officer, will be available for meetings with investors throughout the day.

Arcadia's presentation will be webcast live and available for replay both in the Investors section of the company's website and on the Gateway Conference website at www.gateway-conference.com/presenters. Copies of the presentation will be also available at the conference and in the Investors section of the company's website.

To receive additional information, request an invitation, or schedule a meeting with Arcadia's representatives at the conference, please email gateway@liolios.com.

About the Gateway Conference

The 5th Annual Gateway Conference is an invite-only conference presented by Liolios, which brings together the most compelling companies with the nation's top institutional investors and analysts. This year's event features more than 100 companies from a number of growth industries, including technology, business and financial services, consumer, digital media, clean technology and life sciences. The format has been designed to give attendees direct access to senior management via company presentations, Q&A sessions and one-on-one meetings. For more information, visit www.gateway-conference.com or www.liolios.com.

About Arcadia Biosciences, Inc.

Based in Davis, Calif., with additional facilities in Seattle, Wash. and Phoenix, Ariz., Arcadia Biosciences (Nasdaq: RKDA) develops agricultural products that create added value for farmers while benefitting the environment and enhancing human health. Arcadia's agronomic performance traits, including Nitrogen Use Efficiency, Water Use Efficiency, Salinity Tolerance, Heat Tolerance and Herbicide Tolerance, are all aimed at making agricultural production more economically efficient and environmentally sound. Arcadia's nutrition traits and products are aimed at creating healthier ingredients and whole foods with lower production costs. The company was recently listed in the Global Cleantech 100 and was previously named one of MIT Technology Review's 50 Smartest Companies. For more information, visit www.arcadiabio.com.
